PORTOFOLIO

Maria Cahya Jayanti

Personal Branding

Mapping My Professional Identity

Key Skills

Programming

PHP | Laravel | MySQL | Website Development

Data Science

Microsoft Excel | KNIME | Data Processing | Data Visualization

IT Support

Software Installation | Application Support | Technical Troubleshooting

UI/UX & Design

Figma | Wireframing | Canva | Prototyping | Digital Content Creation

Strengths

- Attention to Detail
- Adaptability
- Problem-Solving
- Teamwork
- Willingness to Learn

Areas of Interest

- Web Development
- Data Science & Analytics
- IT Support
- Information Systems

Values to Showcase

- Accuracy
- Responsibility
- Continuous Learning
- Collaboration
- Integrity

INTRODUCTION

Maria Cahya Jayanti

I am an Information Management graduate with experience in IT Support. My experience includes technical support, website development, digital content management, administrative tasks, and customer service. I also have experience in data processing and analysis using Microsoft Excel and KNIME Analytics Platform. My background in Information Technology helps me understand technical systems and data processing, while my organization has strengthened my attention to detail, accuracy, and communication skills.

Work Experience

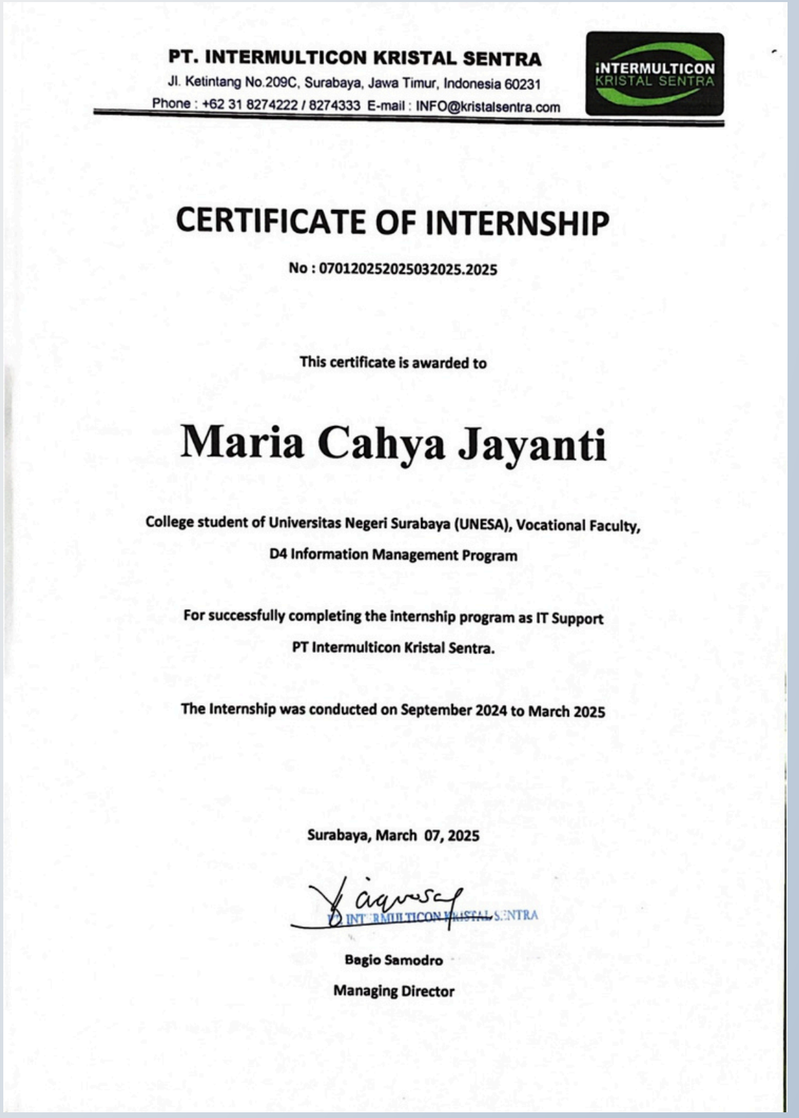

IT Supports - Internship

PT Intermulticon Kristal Sentra, Surabaya

Sep 2024 – Mar 2025

Contribution:

- Designed and built an internal employee reimbursement website to digitize claim submissions.
- Provided daily technical support, software installation, and troubleshooting.
- Updated company profile materials and produced 2 digital content pieces weekly.
- Supported corporate document structuring and administration.

PT. INTERMULTICON KRISTAL SENTRA
Jl. Ketintang No.209C, Surabaya, Jawa Timur, Indonesia 60231
Phone : +62 31 8274222 / 8274333 E-mail : INFO@kristalsentra.com

CERTIFICATE OF INTERNSHIP

No : 07012025202503 2025.2025

This certificate is awarded to

Maria Cahya Jayanti

College student of Universitas Negeri Surabaya (UNESA), Vocational Faculty,
D4 Information Management Program

For successfully completing the internship program as IT Support
PT Intermulticon Kristal Sentra.

The Internship was conducted on September 2024 to March 2025

Surabaya, March 07, 2025

Bagio Samodro
Managing Director

1st Project

Document Tracking and Submission System (Final Year Project)

WHY THE PROJECT WAS CREATED?

The Sistem Tracking dan Pengajuan Surat project was built to digitize and support the submission, management, and real-time status monitoring of official letters in an academic environment, replacing slow manual administrative tracking.

PROBLEM / CHALLENGE

Manual letter requests and tracking lacked status transparency for applicants and required coordinated workflows across 3 distinct user roles with different access rights.

TECH STACK

Laravel PHP MySQL Laravel Blade Figma GitHub

MY CONTRIBUTION

Designed the application workflow and UI in Figma and developed the full-stack web application using Laravel, PHP, and MySQL with a 3-role access structure.

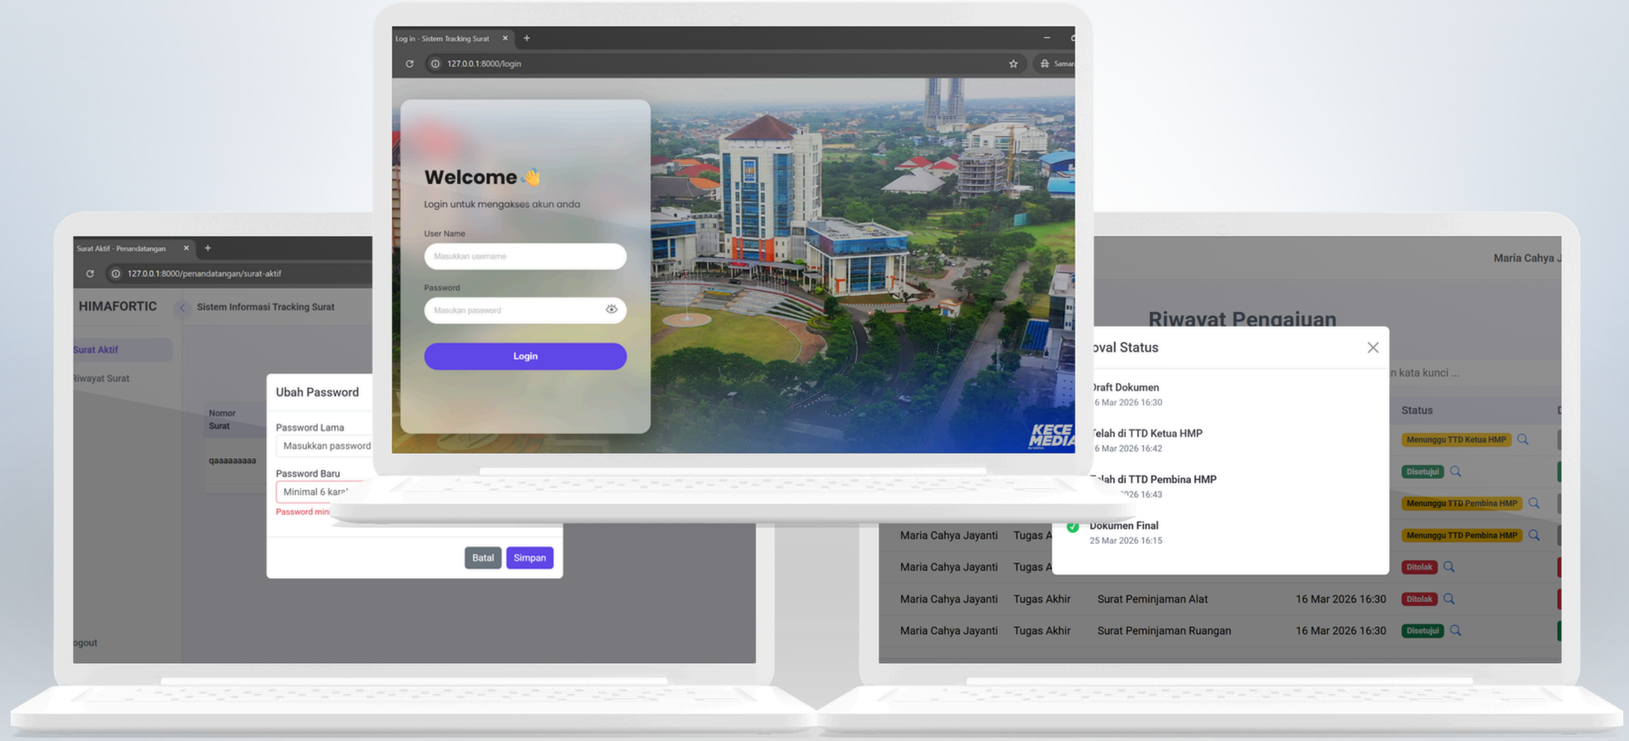

HOW THE PROCESS WAS DONE

Designed user flows and interfaces in Figma, implemented responsive and structured views using Laravel Blade, configured relational MySQL tables, and engineered role-based access control across 3 user roles.

RESULT / IMPACT

The web application streamlined academic letter administration, simplified information access, and provided transparent real-time status tracking for all users.

Interface System

2nd Project

IMDb Movie Review Sentiment Analysis (Codeless Data Science)

WHY THE PROJECT WAS CREATED?

The IMDb Sentiment Analysis project was created as a Codeless Data Science Final Project to process and classify a dataset of 2,000 IMDb movie reviews into positive and negative sentiments using an end-to-end machine learning workflow.

PROBLEM / CHALLENGE

Unstructured raw text across 2,000 movie reviews required rigorous quality inspection, data cleaning, and feature extraction to ensure accurate sentiment classification across multiple models.

TECH STACK

Microsoft Excel | KNIME | CRISP-DM | Data Cleaning | Text Preprocessing

MY CONTRIBUTION

Collaborated in team to conduct data quality checks and cleaning in Excel, build the classification workflow in KNIME, and evaluate Decision Tree vs. XGBoost models.

HOW THE PROCESS WAS DONE

Cleaned 2,000 IMDb reviews in Excel, performed text preprocessing and feature extraction (BoW, TF, Document Vector) in KNIME, and compared Decision Tree vs. XGBoost models.

RESULT / IMPACT

Evaluated model metrics (Confusion Matrix, Precision, Recall, F1-Score, ROC Curve), achieving 92% sentiment classification accuracy with the XGBoost model. Project Documentation: https://drive.google.com/drive/folders/1TPhvkohSFogRRmInskkmDbEztH967kYa?usp=drive_link

3rd Project

Oze Mart Mobile App UI/UX Design (Group Project)

WHY THE PROJECT WAS CREATED?

The Oze Mart Mobile UI/UX project was created to design a user-friendly mobile e-commerce interface that makes it easy for users to search, filter, select, and purchase products seamlessly.

PROBLEM / CHALLENGE

Mobile shopping applications require consistent layout structures, intuitive navigation, and clear user flows across multiple interconnected screens to prevent user drop-off.

TECH STACK

Microsoft Excel | KNIME | CRISP-DM | Data Cleaning | Text Preprocessing

MY CONTRIBUTION

Collaborated in a team project to develop the application concept and designed wireframes, high-fidelity mockups, and interactive prototypes in Figma.

HOW THE PROCESS WAS DONE

Visualized user flows and interactions in Figma across core application pages, including onboarding, login, registration, product search, filter, product details, favorites, and orders.

RESULT / IMPACT

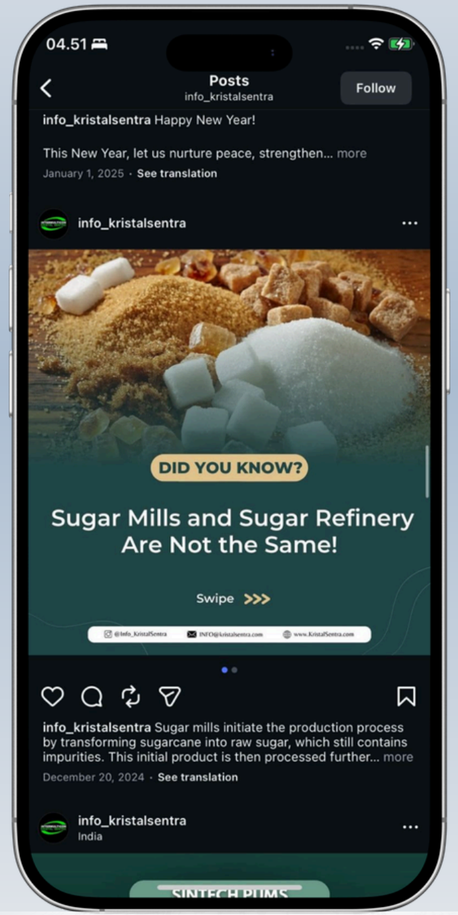

Delivered a cohesive, interactive mobile e-commerce prototype with consistent layout, effortless navigation, and an intuitive end-to-end shopping experience.

Digital Content Design

Thank You!

for taking the time to explore my portfolio.

I hope this portfolio gives you a glimpse of my skills, experiences, and interests.
I am always eager to learn, explore new opportunities, and develop my abilities.
I look forward to connecting, contributing, and growing together.
